SUMMARY

Creative full stack web developer with a strong front-end focus. Passionate about understanding how things work and simplifying complex tasks through technology. Brings a collaborative mindset, empathy, and a commitment to building user-friendly digital experiences.

EXPERIENCE

Frontend Developer → Senior Frontend Developer → Principal Creative Technologist

July 2018 - July 2025

- **Indigo Slate** | Seattle, WA
 - Progressed through multiple roles, demonstrating growth in technical leadership and creative development.
 - Facilitated cross-functional collaboration among developers, project managers, copywriters, videographers, graphic designers, and creative directors using tools such as Figma, Teams, and Azure DevOps.
 - Developed interactive web applications with Vue/Nuxt, Pinia, GSAP, and anime.js, creating seamless user experiences and fluid animations through iterative prototyping, direct design feedback, and alignment with project goals and visual design standards.
 - Refined component architecture by implementing modular design patterns, which enhanced maintainability across multiple large-scale client projects for faster iteration and easier onboarding of new contributors.
 - Spearheaded the integration of accessibility standards across multiple web projects, substantially elevating inclusivity and ensuring compliance with industry guidelines for global user bases.
 - Implemented structured task planning and issue tracking for development sprints through Azure DevOps, promoting organized workflow and timely deliverables.
 - Cultivated strong client relationships through transparent communication, taking ownership of projects, leading technical presentations, and consistently delivering high-quality results.

Web Designer / Development

August 2012 - January 2018

- **Inspirable LLC** | Seattle, WA
 - Implemented Prestashop and Wordpress solutions for diverse client requirements by customizing themes, plugins, and functionality to meet specific project goals.
 - Facilitated iterative feedback cycles by organizing regular check-ins with stakeholders and aligning development objectives through documented communication touchpoints.
 - Revamped user interface layouts and navigation structures by leveraging wireframing tools and client feedback, ensuring seamless digital experiences across multiple platforms.
 - Launched an average of seven responsive e-commerce websites per year using Prestashop, WordPress, and custom CSS/JavaScript, directly increasing client online sales by 35% on average.

Web Design | Graphic Design | Web Development

January 2012 - August 2012

- **Hypr Inc.** | Seattle, WA
 - Created icons, web page layouts, brochures, and visual assets using Adobe Photoshop and Illustrator to support campaign branding and client initiatives.
 - Supported cross-functional needs by providing web design and graphic design expertise across a variety of projects using Adobe Photoshop, Illustrator, HTML, CSS, and JavaScript.
 - Engineered interactive web features and graphics by integrating JavaScript libraries and SVG animations, strengthening brand engagement and elevating user interaction on client-facing digital platforms.

PROJECT

IndigoSlate.com website redesign

- **IndigoSlate.com**
 - Led the development of a modular, CMS-driven website to showcase Indigo Slate's brand.
 - Built a flexible front-end using Storyblok as a headless CMS, enabling teams to easily manage content.
 - Implemented server-side rendering (SSR) for CSP compliance and optimized performance.
 - Translated Figma designs into reusable, accessible components.
 - Integrated engaging GSAP and Lottie animations to enhance storytelling.

Azure Global Infrastructure (Microsoft) - Interactive 3D globe experience

- **Microsoft**
 - Created an immersive way to explore Microsoft's global datacenter network.
 - Developed globe interaction logic, integrated datacenter data, and animated network lines.
 - Optimized rendering for performance across devices and browsers.
 - Ensured accessibility compliance and continuously updated locations as new datacenters launched.

Triview (Trimont) - Real-time portfolio analytics platform

- **Trimont**
 - Helped build a cloud-based platform providing real-time portfolio insights for commercial real estate.
 - Developed responsive Vue components with a modular architecture for scalability.
 - Implemented advanced data visualizations and export/download features.
 - Collaborated closely with another front-end developer and the back-end team to deliver robust dashboards.

Explore Surface (Microsoft) — Interactive 3D product showcase

2021-2024

- **Microsoft**
 - Lead developer on a high-traffic 3D site featuring draggable models, tooltips, and dynamic lighting.
 - Collaborated with a 3D designer to optimize models for performance and cross-device compatibility.
 - Implemented multi-language support and ensured accessibility compliance.
 - Evolved the project over multiple releases as new devices launched.

EDUCATION

Web Development Immersive Course

- **General Assembly**
Seattle, WA • 2018
 - Covered programming fundamentals, data structures, web technologies, database development, CRUD operations, RESTful routing, OOP, TDD, Git, and version control.
 - Engaged in pair programming, agile development, wireframing, rapid prototyping, and peer code reviews.

Web Design & Interactive Media

- **The Art Institute of Seattle**
Seattle, WA • Sept 2008 - Dec 2011

SKILLS

HTML, CSS/SCSS, JavaScript, SQL, JSX, EJS

Vue/Nuxt, React/Next, Node, Express, Bootstrap

MongoDB, Mongoose, PostgreSQL, Sequelize

Flexbox, CSS Grid, Material-UI, Figma, Photoshop, Illustrator, Sketch

Netlify, Git, GitHub, Pinia, AJAX, JSON, jQuery, RESTful APIs, BabylonJS, Vuex, GSAP, Lottie, D3, html2canvas
